## **Introduction**

The Agency for Health Care Administration receives and processes data from several sources in order to produce need projections in accordance with need methodologies and other legal requirements. This publication contains data related to pediatric open heart surgery programs, pediatric cardiac catheterization services, and adult and pediatric organ transplantation programs. For further information supporting service need projections, please refer to the following documents:

Statutory Authority

*Chapter 408, Florida Statutes*

Rules

*Chapter 59C, Florida Administrative Code*

Facility Location Maps

<http://www.floridahealthfinder.gov>

Corrections to the data should be reported to Marisol Fitch at (850) 412-4346. For additional information, please contact the following persons:

## April 2016 Batching Cycle

---

### **Batching Cycle**

Letters of intent and applications subject to comparative review are accepted in two batching cycles annually each for hospital beds and facilities and for other beds and programs. The category "other beds and programs" includes proposals for pediatric open heart surgery, pediatric cardiac catheterization, and organ transplantation. The schedule for the second batching cycle of 2015 for the category "other beds and programs" is outlined below.

#### **Pediatric Open Heart Surgery, Pediatric Cardiac Catheterization and Organ Transplantation Certificate of Need Batching Cycle**

<b>Activity</b>	<b>Current Batching Cycle</b>
Summary Need Projections Published in the F.A.R.	April 01, 2016
Letter of Intent Deadline	April 18, 2016
Application Deadline	May 18, 2016
Completeness Review Deadline	May 25, 2016
Applicant Omissions Deadline	June 22, 2016
Agency Initial Decision Deadline	October 19, 2016

# July 2018 Pediatric Open Heart Surgery Program Projections

## Pediatric Open Heart Surgery Program Need Methodology

$$NN = (LB / 30,000) - (OP + AP) > 1$$

NN is the number of additional pediatric open heart surgery programs in the service planning area projected two years into the future.

LB is the number of live births in the service planning area.

OP is the number of operating programs in the service planning area.

AP is the number of approved programs in the service planning area.

Special Note: The need for pediatric open heart surgery programs is determined solely by the number of live births in a service area. (See Rule 59C-1.033, Florida Administrative Code).
