

Medical Care Advisory Committee

Justin M. Senior

Deputy Secretary for Medicaid

Agency for Health Care Administration

January 28, 2014

2014 Legislative Session

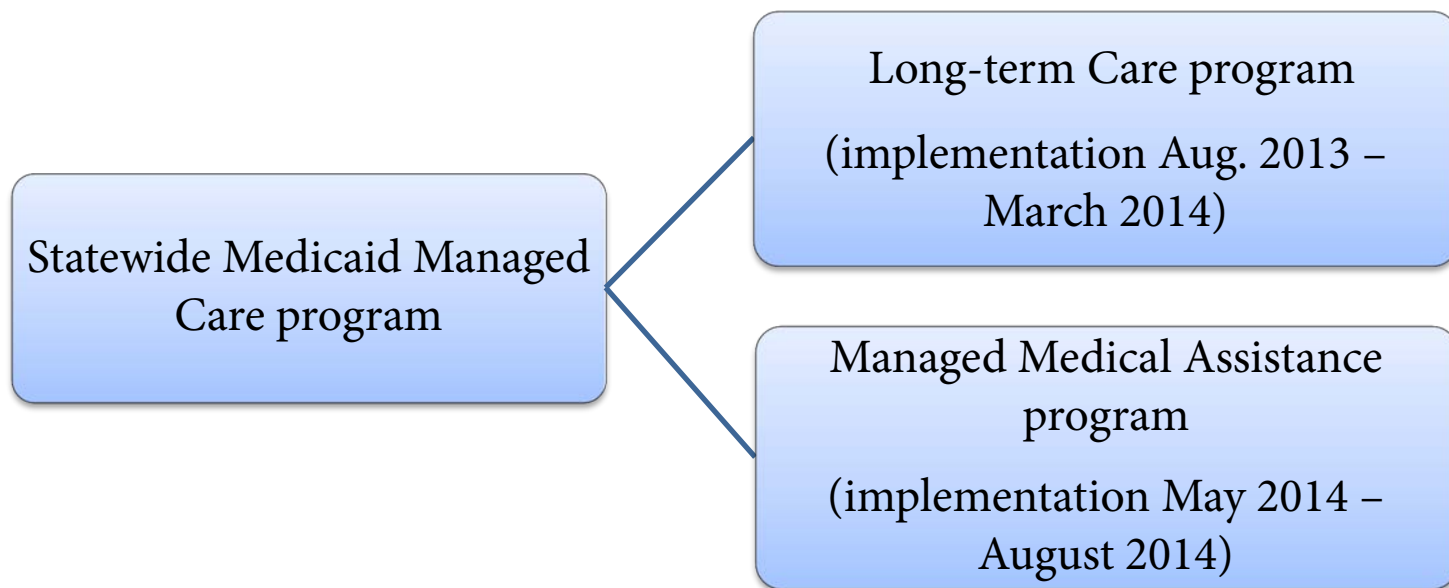

- The 2014 Regular Legislative Session convenes on March 4, 2014.
- The Agency will monitor legislation for any potential impact on the SMMC program.

Statewide Medicaid Managed Care Update

Why are changes being made to Florida's Medicaid program?

- Because of the Statewide Medicaid Managed Care (SMMC) program, the Agency is changing how a majority of individuals receive most health care services from Florida Medicaid.

Status of Waiver Renewal

- On November 27, 2013, the Agency submitted a 3-year waiver extension request to the Centers for Medicare and Medicaid Services (CMS).
- Part of that request includes a proposal to redesign the ongoing Low Income Pool as a “System Access and Transformation Incentive Fund (Incentive Fund)” funded at \$4.5 billion annually.
- Medicaid leadership traveled to Baltimore to discuss with CMS the extension request and redesign of the Low Income Pool.
- We look forward to continuing to work with federal CMS for approval of the extension and Low Income Pool redesign.

Medical Care Advisory Committee Update

Medical Care Advisory Committee

- The Medical Care Advisory Committee (MCAC) was established in accordance with 42 C.F.R. §431.12.
- The committee serves to advise the Agency for Health Care Administration, Division of Medicaid about health and medical care services.
- The MCAC has the opportunity to assist in policy development and program administration, and provides recommendations and suggestions to the Agency on the state's comprehensive quality strategy for the Florida Medicaid program, as described in Special Terms and Conditions (STCs) #43 and #118 of the 1115 Managed Medical Assistance (MMA) Waiver.

Medical Care Advisory Committee

- The STCs require that the Medical Care Advisory Committee include representation of at least four beneficiaries at all times.
- In addition, the STCs require the state to establish smaller advisory committees that will meet on a regular basis (at least quarterly) to focus on the specific subpopulations.

Subpopulation Committees

- Subpopulations:
 - managed long-term services and supports
 - beneficiaries with HIV/AIDS
 - children, including safeguards and performance measures related to foster children
 - the provision of dental care to all children, and
 - behavioral health/substance use disorder services
- These subpopulations will be impacted by SMMC:
 - specialty Plans
 - end of prepaid dental health plans, and prepaid mental health plans

Goals of the Subpopulation Committees

- Focus on the transition of these populations to the Statewide Medicaid Managed Care program.
- Present recommendations and suggestions to the state on the state's comprehensive strategy, as set forth in STC 118.
- Provide input to the state on the consumer report cards, set forth in STC 115.

Proposed Subcommittee Structure

- AHCA staff will serve as “team lead” for each of the subcommittees, facilitating meetings and taking minutes.
- MCAC members will be assigned to each subcommittee and will report back to the MCAC on subcommittee discussions, recommendations and concerns.
- Subcommittee meetings are required quarterly, but may be needed more often.

Committee members will serve without compensation, but will be reimbursed for allowable travel expenses in accordance with the statutory provisions of the State of Florida.

Subpopulation Committee Breakout Session

**We will now break into subpopulation
workgroups.**

You are all invited to participate.
