Statement from Secretary Liz Dudek about National Nurses Week

TALLAHASSEE —“As the nation celebrates the hard work of nurses this week, I want to personally thank each and every nurse in Florida for their tireless efforts to improve the health of others. Nurses work daily to save lives, provide care, educate and administer health programs. Nurses are vital in helping us meet the challenging health care needs of our state’s growing population, and because of our dedicated nurses, Floridians can remain healthy and active in their communities.

“Please join me in honoring the contributions nurses make to our health care systems and communities here in Florida. I am especially thankful for those nurses who have chosen to work on our team at the Agency for Health Care Administration.”

More information about National Nurses Week can be found at <http://nursingworld.org/NationalNursesWeek>.
