AHCA Recognizes National Assisted Living Week

Tallahassee, FL – In recognition of National Assisted Living Week, the Agency would like to recognize the over 3,000 licensed ALFs in the State of Florida for the important role they play in the Agency's mission to provide better health care for all Floridians. The Agency continues to promote quality of care and patient safety for all assisted living residents.

Licensed assisted living facilities in Florida are as diverse as our state – ranging in size from small homelike settings in neighborhoods, to larger facilities with specialized services, all with the goal of assisting elderly persons or adults with a disability to remain as independent as possible. Services can range from assistance with basic activities of daily living to more extensive services depending on specialty licenses the facility holds and the needs of the individual. To learn more about assisted living facilities in Florida, visit our [Assisted Living Portal](#) on FloridaHealthFinder.gov.
