Statement from Secretary Dudek on Recommended Changes to Senate FHI Plan

The following statement from Secretary Elizabeth Dudek is in reference to the Agency's recent recommendations for changes to the Senate's FHI plan:

"We always stand ready to assist members of the legislature as they develop policies. Although we have recommended changes to the FHI plan that alleviate our concerns with the 'death spiral,' we still have many concerns with other areas of the bill, which would make it uncertain whether the FHI plan will be able to provide more Floridians with health coverage."

- Elizabeth Dudek, *Secretary*
