Section II General Overview

A. Background

1. Effective July 1, 2006, the Agency for Health Care Administration will begin implementing Medicaid Reform in Broward and Duval counties. At the end of the first year of implementation, Medicaid Reform will be extended to Nassau, Clay and Baker counties. Medicaid Reform will transform the Medicaid program by empowering Medicaid Recipients to take control of their health care, providing more choices for Recipients, and enhancing their health status through increased health literacy and incentives to engage in healthy behaviors.
2. The principles governing Medicaid Reform are:
 - a. Patient Responsibility and Empowerment;
 - b. Marketplace Decisions;
 - c. Bridging Public and Private Coverage; and
 - d. Sustainable Growth Rate.
3. These principles will empower Medicaid Recipients, provide flexibility to Providers, and facilitate program management for government.

B. Purpose

One of the key goals of Medicaid Reform is the expansion of health care choices for Medicaid Recipients and enhanced access to services. To achieve this goal the Agency proceeded with an open application process to obtain the services of Health Plans. This Contract is the agreement between the Agency and entities operating under Medicaid Reform as a Fee-For-Service (FFS) Provider Service Network (PSN).

C. Responsibilities of the State of Florida (the State) and the Agency for Health Care Administration (the Agency)

1. The Agency will be responsible for administering the Medicaid program, including all aspects of Medicaid Reform. The Agency will administer contracts, monitor PSN performance, and provide oversight in all aspects of the PSN's operations.
2. The Agency will establish the Per Capita Capitation Benchmark (PCCB) for shared savings for PSNs providing services under this Contract.
3. The State of Florida has sole authority for determining eligibility for Medicaid and whether Medicaid Recipients are mandated to enroll in, may enroll in, or may not enroll in Medicaid Reform.
4. The Agency or its Agent will review the Florida Medicaid Management Information System (FMMIS) file daily and will send written notification and information to all Potential Enrollees. A Potential Enrollee will have thirty (30) Calendar Days to select a Health Plan.

5. The Agency or its Agent will Auto-Assign Mandatory Potential Enrollees who do not select a Health Plan during their choice period to a Health Plan using a pre-established algorithm.
6. Enrollment in a Health Plan, whether chosen or Auto-Assigned, will be effective at 12:01 a.m. on the first (1st) Calendar Day of the month following Potential Enrollee selection or Auto-Assignment, for those Potential Enrollees who choose or are Auto- Assigned to a Health Plan on or between the first (1st) Calendar Day of the month and the Penultimate Saturday of the month. For those Enrollees who choose or are Auto-Assigned a Health Plan between the Sunday after the Penultimate Saturday and before the last Calendar Day of the month, Enrollment in a Health Plan will be effective on the first (1st) Calendar Day of the second (2nd) month after choice or Auto-assignment.
7. The Agency or its Agent will notify the Health Plan of an Enrollee's selection or assignment to a Health Plan.
8. The Agency or its Agent will send a written confirmation notice to Enrollees identifying the chosen or Auto-Assigned Health Plan. If the Enrollee has not chosen a PCP, the confirmation notice will advise the Enrollee that a PCP will be chosen for him/her. Notice to the Enrollee will be made in writing and sent via Surface Mail. Notice to the Health Plan will be made via file transfer.
9. Conditioned on continued eligibility, Mandatory Enrollees will have a Lock-In period of twelve (12) consecutive months. After an initial ninety (90) day change period, Mandatory Enrollees will only be able to disenroll from their Health Plan for Cause. The Agency or its Agent will notify Enrollees at least once every twelve (12) months, and at least sixty (60) Calendar Days prior to the date the Lock-In period ends (the Open Enrollment period), that they have the opportunity to change Health Plans. Enrollees who do not make a choice will be deemed to have chosen to remain with their current Health Plan, unless the current Health Plan no longer participates in Medicaid Reform. In this case, the Enrollee will be Auto-Assigned to a new Health Plan.
10. The Agency or its Agent will automatically re-enroll an Enrollee into the Health Plan in which he or she was most recently enrolled if the Enrollee has a temporary loss of eligibility, defined for purposes of this Contract as less than 180 Calendar Days. In this instance, for Mandatory Potential Enrollee, the Lock-In period will continue as though there had been no break in eligibility, keeping the original twelve (12) month period.
11. If a temporary loss of eligibility has caused the Enrollee to miss the Open Enrollment period, the Agency or its Agent will enroll the Enrollee in the Health Plan in which he or she was enrolled prior to the loss of eligibility. The Enrollee will have ninety (90) Calendar Days to disenroll without Cause.
12. The State will issue a Medicaid identification (ID) number to a newborn upon notification from the PSN, the hospital, or other authorized Medicaid provider, consistent with the Unborn Activation Process.
13. The Agency or its Agent will notify Enrollees of their right to request Disenrollment as follows:
 - a. For Cause at any time, or
 - b. Without Cause, at the following times:
 - (1) During the ninety (90) days following the Enrollee's initial Enrollment, or the date the Agency or its Agent sends the Enrollee notice of the enrollment, whichever is later;

- (2) At least every twelve (12) months;
 - (3) If the temporary loss of Medicaid eligibility has caused the Enrollee to miss the Open Enrollment period; or
 - (4) When the Agency or its Agent grants the Enrollee the right to terminate Enrollment without Cause. The Agency or its Agent determines the Enrollee's right to terminate Enrollment on a case-by-case basis.
 - (5) If the individual chooses to opt out and enroll in their employer-sponsored health insurance plan.
14. The Agency or its Agent will process all Disenrollments from the Health Plan. The Agency or its Agent will make final determinations about granting Disenrollment requests and will notify the Health Plan via file transfer and the Enrollee via Surface Mail of any Disenrollment decision. Enrollees dissatisfied with an Agency determination may have access to the Medicaid Fair Hearing process.
 15. When Disenrollment is necessary because an Enrollee loses Medicaid eligibility, Disenrollment shall be immediate.

Inpatient Hospital services are medically necessary mental health care services provided in a hospital setting (see Section V.B.8, Covered Services, Hospital Services – Inpatient, in this Contract). Services may be provided in a general Hospital psychiatric unit ~~or in a specialty Hospital~~. The inpatient care and treatment services that an Enrollee receives must be under the direction of a licensed physician with the appropriate Medicaid specialty requirements.

- a. A hospital's per diem (daily rate) for inpatient mental health hospital care and treatment covers all services and items furnished during a 24-hour period. - b. For all Child/Adolescent Enrollees, the PSN shall be responsible for the provision of up to 365 days of mental health-related Hospital inpatient care for each year.
- c. For all Enrollees, the PSN shall pay for inpatient mental health-related Hospital days determined Medically Necessary by the PSN's medical director or designee, up to the maximum number of days required under the Contract.
- d. If an Enrollee is admitted to a Hospital for a non-psychiatric diagnosis and during the same hospitalization transfers to a psychiatric unit or the treatment of a psychiatric diagnosis, the PSN is at risk for the Medically Necessary mental health treatment inpatient days up to the maximum number of days required under the Contract.
- e. The PSN shall be responsible to cover the cost of all Enrollees' Medically Necessary stays resulting from a mental health emergency, until such time as Enrollees can be safely transported to a designated facility.

A Hospital visit to an Enrollee in an acute care Hospital for a mental health diagnosis must be documented with a mental health procedure code and mental health diagnosis code. All procedures with a minimum time requirement shall be documented in the medical record to show the time spent providing the service to the Enrollee. The PSN must be responsive to requests for consultations made by the PCP.
- c. Physicians are required to coordinate Medically Necessary mental health care with the PCP and other Providers involved with the care of the Enrollee. The PSN shall have a set of protocols that indicate when such coordination will be required.

4. Community Mental Health Services – Covered Services

- a. General Provisions

Community mental health services include mental health services that are provided for the maximum reduction of the Enrollee's mental health disability and restoration to the best

possible functional level. Community mental health services can reasonably be expected to improve the Enrollee's condition or prevent further regression so that the services will no longer be needed. The PSN must provide services that are medically necessary and are rendered or recommended by a physician, psychiatrist, or licensed mental health professional and included in an individualized treatment plan. Medically Necessary community mental health services must be provided to Enrollees of all ages from very young children through the geriatric population. Provision of services very early may reduce the provision of expensive services later, and the PSN is encouraged to use creativity, flexibility, and outreach to provide mental health services to its enrollees. Services should be age appropriate and sensitive to the developmental level of the enrollee.

The services provided must meet the intent of the services covered in the Florida Medicaid Community Mental Health Services Coverage and Limitations Handbook. Although the PSN can provide flexible services, the service limits and medical necessity criteria cannot be more restrictive than those in Medicaid policy as stated in Medicaid handbooks and this Contract. Additionally, the PSN may have available additional services, but must have the core services available as outlined and discussed below.

The PSN shall establish "Medical Necessity" criteria, including admission criteria, continuing stay criteria, and discharge criteria for all mandatory and optional services. Criteria must be specific to enrollee ages and diagnoses and must account for orders for involuntary outpatient placement pursuant to 394.4655, F.S. These criteria must be submitted for review by the Agency and approval.

The following describes basic categories of mental health care services considered core services. The frequency, duration, and content of the services should be consistent with the age, developmental level and level of functioning of the enrollee. The PSN shall develop clinical care criteria appropriate for each service to be provided. The PSN shall consult the most recent Community Behavioral Health Services Coverage and Limitations Handbook published by the Agency.

b. Treatment Plan Development and Modification

Treatment planning includes working with the Enrollee, their natural support system, and all involved treating Providers to develop an individualized plan for addressing identified clinical needs. A Behavioral Health Care Provider must complete a face-to-face interview with the Enrollee during the development of the plan.

The Individualized Treatment Plan shall:

- be recovery-oriented and promote resiliency;
- be enrollee-directed;
- accurately reflect the presenting problems of the enrollee;
- be based on the strengths of the enrollee, family, and other natural support systems;
- provide outcome-oriented objectives for the enrollee;
- include an outcome-oriented schedule of services that will be provided to meet the enrollee's needs;
- include the coordination of services not covered by the plan such as school-based services, vocational rehabilitation, housing supports, Medicaid fee-for service substance abuse treatment, and physical health care.

Individualized Treatment Plan reviews shall be conducted at six-month intervals to assure that the services being provided are effective and remain appropriate for addressing individual needs. Additionally, a review is expected whenever clinically significant events occur. The provider is expected to use the Individualized Treatment Plan review process in the utilization management of medically necessary services. For further guidance see the most recent Community Behavioral Health Services and Coverage Handbook.

c. Assessment Services

- (1) These services include psychological testing (standardized tests) and evaluations that assess the enrollee's functioning in all areas. All evaluations must be appropriate to the age, developmental level and functioning of the enrollee. All evaluations must include a clinical summary that integrates all the information gathered and identifies enrollee's needs. The evaluation should prioritize the clinical needs, evaluate the effectiveness of any prior treatment, and include recommendations for interventions and services to be provided.
- (2) Evaluation ~~or assessment~~ services, when determined medically necessary, must include assessment of mental status, functional capacity, strengths, and service needs by trained mental health staff. Also included in this category is the administration of the functional assessments that are required by the Agency, DCF, the EQRO, or academic research center.
- (3) Prior to receiving any community mental health services, children ages 0-5 must have a current assessment (within one year) of presenting symptoms and behaviors; developmental and medical history; family psychosocial and medical history; assessment of family functioning; a clinical interview with the primary caretaker and an observation of the child's interaction with the caretaker; and an observation of the child's language, cognitive, sensory, motor, self-care, and social functioning.

d. Medical and Psychiatric Services

- (1) These services include Medically Necessary interventions that require the skills and expertise of a psychiatrist, psychiatric ARNP, or physician.
- (2) Medical psychiatric interventions include the prescribing and management of medications, monitoring of side effects associated with prescribed medications, individual or group medical psychotherapy, psychiatric evaluation, psychiatric review of treatment records for diagnostic purposes, and psychiatric consultation with an enrollee's family or significant others, primary care providers, and other treatment providers.
- (3) Interventions related to specimen collections, taking vital signs and administering injections are also a covered service.
- (4) These services are distinguished from the physician services outlined in Section C in that they are provided through a community mental health center. Psychiatric or physician services must be available at sites where substantial amounts of community mental health services are provided.

e. Behavioral Health Therapy Services:

- (1) These services include individual and family therapy, group therapy, and behavioral health day services. These services include psychotherapy or supportive counseling

focused on assisting enrollees with the problems or symptoms identified in an assessment. The focus should be on identifying and utilizing the strengths of the enrollee, family, and other natural support systems. Therapy services should be geared to the individual needs of the enrollee and should be sensitive to the age, developmental level, and functional level of the enrollee.

- (2) Family or marital therapy is also included in this category. Examples of interventions include those that focus on resolution of a life crisis or an adjustment reaction to an external stressor or developmental challenge.
 - (3) Behavioral Day Services are designed to enable individuals to function successfully in the community in the least restrictive environment and to restore or enhance ability for social and prevocational life management services. The primary functions of behavioral health day services are stabilization of the symptoms related to a behavioral health disorder to reduce or eliminate the need for more intensive levels of care, to provide transitional treatment after an acute episode, or to provide a level of therapeutic intensity not possible in a traditional outpatient setting.
- f. Community Support and Rehabilitative Services
- (1) These services include: Psychosocial Rehabilitation Services and Clubhouse services. Clubhouse services are excluded from the PSN's covered services. Psychosocial rehabilitation services may be provided in a facility, home, or community setting. These services assist enrollees in functioning within the limits of a disability or disabilities resulting from a mental illness. Services focus on restoration of a previous level of functioning or improving the level of functioning. Services must be individualized and directly related to goals for improving functioning within a major life domain.
 - (2) The coverage must include a range of social, educational, vocational, behavioral, and cognitive interventions to improve enrollees' potential for social relationships, occupational/educational achievement and living skills development. Skills training development is also included in this category and includes activities aimed toward restoration of enrollees' skills/abilities that are essential for managing their illness, actively participating in treatment, and conducting the requirements of daily independent living. Providers must offer the services in a setting best suited for desired outcomes, i.e., home or community-based settings.
 - (3) Psychosocial Rehabilitative Services may also be provided to assist individuals in finding or maintaining appropriate housing arrangements or to maintain employment. Interventions should focus on the restoration of skills/abilities that are adversely affected by the mental health illness and supports required to manage the individual's housing or employment needs. The provider must be knowledgeable about the local TANF initiative and is responsible for medically necessary mental health services that will assist the individual in finding and maintaining employment.
- g. Therapeutic Behavioral On-Site Services for Children and Adolescents (TBOS):

Therapeutic Behavioral On-Site Services are community services and natural supports for children with serious emotional disturbances. Clinical services include the provision of a professional level therapeutic service that may include the teaching of problem solving skills, behavioral strategies, normalization activities and other treatment modalities that are determined to be medically necessary. These services should be designed to maximize strengths and reduce behavior problems or functional deficits stemming from the existence

of a mental health disorder. Social services include interventions designed for the restoration, modification, and maintenance of social, personal adjustment and basic living skills.

These services are intended to maintain the child in the home and to prevent reliance upon a more intensive, restrictive, and costly mental health placement. They are also focused on helping the child possess the physical, emotional, and intellectual skills to live, learn and work in their own communities. Coverage must include the provision of these services outside of the traditional office setting. The services must be provided where they are needed, in the home, school, childcare centers or other community sites.

h. Services for Children Ages 0 through 5-Years

Services to these children include behavioral health day services and Therapeutic Behavioral On-Site Services for Children Ages 0 through 5 years.

Prior to receiving these services, the children in this age group must meet the criteria as stated in the Medicaid Community Behavioral Health Service Coverage and Limitations Handbook.

i. Crisis Intervention Mental Health Services and Post-Stabilization Care Services

Crisis intervention services include intervention activities of less than 24-hour duration (within a 24-hour period) designed to stabilize an individual in a Psychiatric emergency.

Post-stabilization care services include any of the mandatory services that a treating physician views as medically necessary, that are provided after an enrollee is stabilized from an emergency mental health condition in order to maintain the stabilized condition, or under the circumstances described in 42 CFR 438.114(e) to improve or resolve the enrollee's condition.

j. Substance Abuse Services

PSN Enrollees will receive Medicaid funded substance abuse services through the fee-for-service system. The PSN shall develop methods of coordinating and integrating mental health and substance abuse services for plan enrollees. The plan shall be required to use the Florida Supplement to the American Society of Addictions Medicine Patient Placement Criteria for the coordination of mental health treatment with substance abuse providers as part of the integration effort (Second Edition ASAM PPC-2, July 1998.) the coordination shall be reflected in their individualized Treatment Plan for enrollees with co-occurring disorder. The protocol for integrating mental health services with substance abuse services shall be monitored through the Quality of Care monitoring activities completed by the Agency's EQRO contractor and the Quality Improvement requirements in Section ~~D-34~~VIII, A.3.b.

5. Mental Health Targeted Case Management

- a. The PSN must provide targeted Case Management services to Children/Adolescents with serious emotional disturbances and adults with a severe mental illness as defined below. The PSN shall meet the intent of the services as outlined below and in the Medicaid Mental Health Targeted Case Management Coverage and Limitations Handbook. The PSN shall set criteria and clinical guidelines for Case Management services. Service limits and criteria developed cannot be more restrictive than those in Medicaid policy and as stated below.

At a minimum, case management services are to incorporate the principles of a strengths-based approach. Strengths-based case management services are an alternative service modality for working with individuals and families. This method stresses building on the strengths of individuals that can be used to resolve current problems and issues, countering more traditional approaches that focus almost exclusively on individuals' deficits or needs.

b. Target Populations:

- (1) The PSN shall have Case Management services available to Children/Adolescents who have a serious emotional disturbance as defined as: a Child/Adolescent with a defined mental disorder; a level of functioning which requires two or more coordinated mental health services to be able to live in the community; and be at imminent risk of out of home mental health treatment placement.
- (2) The PSN must have case management services available for adults who:
 - Have been denied admission to a long-term mental health institution or residential treatment facility; or
 - Have been discharged from a long-term mental health institution or residential treatment facility.
 - Require numerous services from different providers and also require advocacy and coordination to implement or access services;
 - Would be unable to access or maintain consistent care within the service delivery system without case management services;
 - Do not possess the strengths, skills, or support system to allow them to access or coordinate services; The PSN will not be required to seek approval from the Department of Children and Families, District Substance Abuse and Mental Health (SAMH) Office for individual eligibility or mental health targeted case management agency or individual provider certification. The staffing requirements for case management services are listed below. Refer to ~~section d~~[Section VI, B.5.d.](#); Additional Requirement For [Targeted](#) Case Management.
- (3) Mental health targeted Case Management services shall be available to all Enrollees within the principles and guidelines described as follows:
 - (a) Enrollees, who require numerous services from different providers and also require advocacy and coordination to implement or access services are appropriate for Case Management services;
 - (b) Enrollees who would be unable to access or maintain consistent care within the service delivery system without Case Management services are appropriate for the service;
 - (c) Enrollees who do not possess the strengths, skills, or support system to allow them to access or coordinate services are appropriate for Case Management services;
 - (d) Enrollees without the skills or knowledge necessary to access services may benefit from Case Management. Case Management provides support in gaining skills and knowledge needed to access services and enhances the Enrollee's level of independence.
- (4) The PSN will not be required to seek approval from the DCF, District Substance Abuse and Mental Health Program Office for client eligibility or mental health targeted Case

Management agency or individual provider certification. The staffing requirements for Case Management services are found in Section VII.E..7, Provider Network, Behavioral Health Services, in this Contract.

c. Required Mental Health Targeted Case Management Services

- (1) Mental Health Targeted Case Management services include working with the Enrollee and the Enrollee's natural support system to develop and promote a needs assessment-based service plan. The service plan reflects the services or supports needed to meet the needs identified in an individualized assessment of the following areas: education or employment, physical health, mental health, substance abuse, social skills, independent living skills, and support system status. The approach used should identify and utilize the strengths, abilities, cultural characteristics, and informal supports of the enrollee, family, and other natural support systems. Targeted case managers focus on overcoming barriers by collaborating and coordinating with Providers and the Enrollee to assist in the attainment of service plan goals. The targeted case manager takes the lead in both coordinating services/treatment and assessing the effectiveness of the services provided. A strengths-based approach to providing services is consistent with the values of individuality and uniqueness and promotes participant self-direction and choice. The planning process is vital to achieving desired outcomes for the individual. The person must have a sense of ownership about his/her goals, and the goals must have true meaning and vitality for him/her.
- (2) When targeted case management recipients enrolled in the PSN are hospitalized in an acute care setting or held in a county jail or juvenile detention facility, the PSN shall maintain contact with the individual and shall participate actively in the discharge planning processes.
- (3) Case managers are also responsible for coordination and collaboration with the parents or guardians of Children/Adolescents who receive mental health targeted Case Management services. The PSN shall make reasonable efforts to assure that case managers include the parents or guardians of Enrollees in the process of providing targeted Case Management services. Integration of the parent's input and involvement with the case manager and other Providers shall be reflected in Medical Record documentation and monitored through the PSN's quality of care monitoring activities. Involvement with the child's school and/or childcare center must also be a component of case management with children

d. Additional Requirements for Targeted Case Management

- (1) The PSN shall have a Case Management program, including clinical guidelines and protocol that addresses the issues below:
 - (a) Caseloads must be set to achieve the desired results. Size limitations must clearly state the ratio of enrollees to each individual case manager. The limits shall be specified for children and adults, with a description of the clinical rationale for determining each limitation. If the PSN permits "mixed" caseloads, i.e., children and adults, a separate limitation is expected along with the rationale for the determination. Ratios must be no greater than the requirements set forth in the Medicaid Mental Health Targeted Case Management Coverage and Limitations Handbook.
 - (b) A system shall be in place to manage caseloads when positions become vacant.

- (c) The modality of service provision, and the location that services will be provided, shall be described.
 - (d) Case Management protocol and clinical practice guidelines, which outline the expected frequency, duration and intensity of the service, shall be available.
 - (e) Clinical guidelines shall address issues related to recovery and self-care, including services that will assist Enrollees in gaining independence from the mental health and Case Management system.
- (2) The Case Management program shall have services available based on the individual needs of the Enrollees receiving the service. The service should reflect a flexible system that allows movement within a continuum of care that addresses the changing needs and abilities of Enrollees.
- (a) Case management staff must have expertise and training necessary to competently and promptly assist enrollees in working with Social Security Administration or Disability Determination in maintaining benefits from SSI and SSDI. For clients who wish to work, case management staff must have the expertise and training necessary to assist enrollees to access Social Security Work Incentives including development of Plans for Achieving Self-Support (PASS).
 - (b) At a minimum, case management services are to incorporate the principles of a strengths-based approach. Strengths-based case management services are a preferred service modality for work with individuals and families. This method stresses building on the strengths of individuals and families that can be used to resolve current problems and issues. This approach counters more traditional approaches that focus almost exclusively on individuals' deficits or needs. Service limits and criteria developed cannot be more restrictive than those in Medicaid policy.

6. Intensive Case Management

- a. Intensive Case Management is intended to provide intensive team Case Management to highly recidivistic adults who have a severe and persistent mental illness. The service is intended to help Enrollees remain in the community and avoid institutional care. Clinical care criteria for this level of Case Management shall address the same elements required above, as well as expanded elements related to access and twenty-four (24) hour coverage as described below. Additionally, the intensive Case Management team composition shall be expanded to include members of the team selected specifically to assist with the special needs of this population. The PSN shall include the team composition and how it will assist with special needs in the description of how this service will be provided.
- b. The PSN shall provide this service for all Enrollees for whom the service is determined to be Medically Necessary, to include enrollees who meet the following criteria:

- Resides in the community and, due to a mental illness, exhibits behavior or symptoms that could result in long-term hospitalization if frequent interventions for an extended period of time were not provided.
- c. Intensive Case Management provides services through the use of a team of case managers. The team can be expanded to include other specialists that are qualified to address identified needs of the Enrollees receiving intensive Case Management. This level of care for Case Management is the most intensive and serves Enrollees with the most severe and disabling mental conditions. Services are frequent and intense with a focus on assisting the Enrollee with attaining the skills and supports needed to gain independent living skills. Intensive Case Management services are provided primarily in the Enrollee's residence and include community-based interventions.
 - d. The PSN shall provide this service in the least restrictive setting with the goal of improving the Enrollee's level of functioning, and providing ample opportunities for rehabilitation, recovery, and self-sufficiency. Intensive Case Management services shall be accessible twenty-four (24) hours per day, seven (7) days per week. The PSN shall demonstrate adequate capacity to provide this service for the targeted population within the guidelines outlined.

Targeted case managers are responsible for working with the former Enrollee before discharge from the State facility to assure that Benefits are reinstated as soon as possible, and that the Enrollee receives community Behavioral Health Services within twenty-four (24) hours of his/her discharge from the State facility.
- c. If the Enrollee remains in the State facility more than one hundred eighty (180) days after Disenrollment, the PSN shall cooperate with DCF and the Enrollee to ensure that the Enrollee is assigned a DCF funded Case Management provider who will bear the responsibility of ongoing monthly follow-up care and discharge planning until such time that the Enrollee is again eligible for and enrolled in a PSN.

- d. Provide outreach to homeless and other populations of plan enrollees at risk of criminal justice system involvement, as well as those plan enrollees currently involved in this system, to assure that services are accessible and provided when necessary. This activity should be oriented toward preventative measures to assess mental health needs and provide services that can potentially prevent the need for future inpatient services or possible deeper involvement in the criminal justice system.
- e. The PSN shall develop a cooperative agreement with corrections facilities to enable the PSN to anticipate Enrollees who were PSN Enrollees prior to incarceration who will be released from these institutions. The cooperative agreement must address arrangement for persons who are to be released, but for whom re-Enrollment may not take effect immediately. All Enrollees who were PSN Enrollees prior to incarceration and Medicaid Recipients who are likely to enroll in the PSN upon return to the community must receive a community mental health service within twenty-four (24) hours of discharge from the corrections facility

The Department of Juvenile Justice, residential providers, and/or the assigned Mental Health Targeted Case Management providers will be responsible for notifying Medicaid of all admissions and discharges. A specific agreement regarding the disenrollment and re-enrollment process will be developed between the Agency, residential providers, and the departments.

J. Encounter Data

The Agency is developing a Medicaid Encounter Data System (MEDS) to collect all encounter data from PSNs reimbursed on a capitated basis. Encounter data collection will be required from all Florida PSNs for all capitated health care services rendered to its members.

The information required to support encounter reporting and submission will be defined by the Agency in the MEDS Companion Guide and MEDS Operations Manual. Other information contained within the MEDS Companion Guide and MEDS Operations Manual will be Managed Care Organization testing requirements for SFY 06-07 and thereafter. The Companion Guide and Operations Manual will be distributed to PSNs in a manner that makes them easily accessible.

Upon the request of the Agency, PSNs shall be prepared to submit encounter data, for services for which it has received capitation payments from the Agency, to the Agency or its designee. PSNs shall have a comprehensive automated and integrated Encounter Data System that is capable of meeting the requirements listed below:

1. All encounters shall be submitted in the standard HIPAA transaction formats, namely the ANSI X12N 837 Transaction formats (P - Professional, I - Institutional, and D - Dental), and the National Council for Prescription Drug Programs NCPDP format (for Pharmacy services).
2. PSNs shall collect and submit to the Agency or its designee, Enrollee service level encounter data for all covered services. PSNs will be held responsible for errors or noncompliance resulting from their own actions or the actions of an agent authorized to act on their behalf. See Section XII, A.1., for requirements regarding certification of data.
3. PSNs shall have the capability to convert all information that enters their claims systems via hard copy paper claims to encounter data to be submitted in the appropriate HIPAA compliant formats. PSNs shall ensure that network Providers receiving subcapitation or a flat rate also generate encounters, and the PSN is responsible for submitting these encounters in the appropriate HIPAA compliant formats.
4. Complete and accurate encounters shall be provided to the Agency. PSNs will implement review procedures to validate encounter data submitted by providers. The historical encounter data submission shall be retained for a period not less than five years following generally accepted retention guidelines.

D. Provider Reporting

1. The Health Plan shall submit to the Agency or its Choice Counselor/Enrollment Broker, via FTP, the Health Plan's provider directory for each county on at least a monthly basis, and in the format described below. This report serves dual purposes. The Agency or its Choice Counselor/Enrollment Broker loads this information into their system for use in answering beneficiary questions and to enable primary care provider (PCP) selection at the time of voluntary Health Plan enrollment. The Agency uses the file to monitor the Health Plan's compliance with required provider network composition and PCP to member ratios and for other uses deemed pertinent.
2. The Health Plan must ensure that the Provider Network Report as described in Table 3 of this section is an electronic representation of the Health Plan's network of contracted providers, not a listing of entities for whom claims have been paid.
3. The file is an ASCII flat file and is a complete refresh of the provider information. The file must be submitted on the first Thursday of each month. The file may be submitted each week by close of business on Thursday. The Agency or its Choice Counselor/Enrollment

Broker will reload the provider information each Friday evening. The file name will be **???** **PROVYYYYMMDD.dat** (replacing ?'s with the Health Plan's three character approved abbreviation and yyymmdd with the date the file is submitted). Both the Choice Counselor/Enrollment Broker and the Agency will use this required file. The Health Plan may use this optional file submission opportunity to ensure that the information presented to beneficiaries is the most current data available. Updated provider network information is available to Agency or its Choice Counselor/Enrollment staff each Saturday morning.

4. The schedule for provider file submittals may be found on the Agency's website at: http://ahca.myflorida.com/MCHO/Managed Health Care/MHMO/docs/Medicaid_Options/2007_calendar.pdf

a. Trailer Record

The trailer record is used to balance the number of records received with the number loaded on BESST. The data from the Trailer Record is not loaded on BESST.

RECORD LENGTH: 76

Filed Name	Field Length	Field Format	Values
Trailer Record Text	36	Alpha	'TRAILER RECORD DATA'
Record Count	7	Numeric	Total number of records on file excluding the trailer record (right justified, zero filled)
System Process date	8	Alpha	Mmddyvy

b. Provider File Load

Each weekend ACS compiles the provider files and loads it to the Provider table. During this process an error file is created for each plan identifying the records that do not load to the table.

IF the plan does not send a new file, then the previous file is used for this load. The tables are RELOADED not refreshed. Therefore, a file is needed for each plan. If the file attempts to load and all records error off, there will not be providers for that plan in the database. Weekly files are due by end of business on Thursday.

ACS does not correct records provided by the plan. All records are loaded as they are received. The plans are responsible for ensuring the data provided is correct and complete.

All data in the file is loaded in upper case for use by BESST. All zip codes are abbreviated to the first 5 digits of the zip code to facilitate searches.

c. Rules (Most provider network file rules are imbedded in the file layout above.)

- a) If a provider practices at multiple 'location addresses', one record is submitted for each location. The address is required and should be complete with city and zip code.
- b) First occurrence of specialty code should be the 'Primary'. This field should be populated only with valid, state approved, specialty codes. This field is not required but if not populated with a valid code, will omit the provider from a by specialty search.
- c) HMO and Reform PSN beneficiaries do not have to select their PCP provider at the time of enrollment. If they elect to do so, a provider, assigned to the plan selected, will be identified with a PCP Indicator of P. If the PCP Indicator is N or not populated, the provider cannot be selected as the beneficiary's doctor, groups cannot be selected as the primary care provider for an HMO or PSN plan.
- d) MediPass, Minority Physician Networks and ER Diversion Project beneficiaries DO have to select a PCP at the time of enrollment.

d. Definitions (Field numbers correspond with layout grid above.)

1. Plan Code: Required – For HMOs and Reform PSNs, this is the 9 digit **HMO Medicaid Provider ID, or PSN Supergroup** number specific to the county of operations. Effective 9-19-07, the **Non-reform PSN subnetwork** (SFCCN-PHT) will use a Supergroup number. This is the **MediPass** plan County identifier = MP + county number (MP06 = MediPass Broward). **Used for MediPass Provider and Non-Reform Medipass Supergroups.**

2. Provider Type: Required - Identifies the physician's general area of service with an alpha character. See the provider description reference table for all accepted values. Treating providers that are members of a group will have their own record, provider type P, PCP indicator P, so the group or the individual may be selected for enrollment. For PSN and Medipass-MPN and ER Diversion, each Beneficiary will be enrolled to the Supergroup, the individual Provider selected by the beneficiary will be provided to the PSN/MPN/PERD in the monthly Recipient Data file.

3. Plan Provider Number: Required - The unique number assigned to the provider by the plan. Plans will be required to fill leading spaces with zeros. For MediPass, MPNs, PERD, and Nonreform PSN, this is the assigned 9 digit Medicaid ID for the provider.

4. Group Affiliation: Required for Groups and members of groups (provider types, P, I, D or T and G) (This field may be NULL for other records not associated with a group) – This is the Plan Provider Number assigned by the HMO, PSN or MediPass to the group practice that the provider is affiliated with. The group affiliation number is the same for all providers within that group. While the Group Affiliation is not required to be used for PCPs that are not members of a group or for individual providers (i.e. non-PCPs), the provider file analysis is not able to determine which I, T or D providers (or P) are solo practitioners. Therefore, **HMO or Reform PSN** individual providers that do NOT practice as members of a group plan should populate this field and may use the plan code (**Plan Medicaid ID for the county**) with leading zeroes or another number, such as a number assigned to the provider by the plan, provider's Medicaid ID or other number.

5. SSN/FEIN Number: Required - Social Security Number or Federal Identification Number for the individual provider or group practice.

6. Provider Last Name: Required - The last name of the provider (or beginning of group name).

7. Provider First Name: Optional - The first name of the provider (or continuation of group name).

9. Address Line 2: Optional - Second line of the practice/location address for the provider.

Valid Values are **P**=Yes the provider can be selected as the primary, and **N**=No the provider cannot be selected as the primary care provider. For Medipass or PSN enrollments, if the group record is to be selected for enrollment, the PSP indicator must be P for the G, group record. These are the only valid values for this field. See examples in this document.
- 17. Provider Limitation:** Required if the PCP indicator is P – Limitation code the provider has specified.
- 18. HMO/MediPass Indicator:** Required – Identifies if the provider is with an HMO=H, MediPass=M or PSN=P. These are the only valid values for this field.
- 19. Evening Hours:** Optional – Indicates that the doctor or clinic is open in the evenings. Values can be Y=Yes, N=No or null.
- 20. Saturday Hours:** Optional – Indicates that the doctor or clinic is open on Saturdays. Values can be Y=Yes, N=No or null.

Formatted: Font: 10 pt

This file is produced by ACS for HMOs, PSNs and MediPass (including special networks/projects) and contains information on the number of provider records that were loaded into BESST and records that had errors and were not loaded. The file is sent to each HMO, PSN and MediPass for each provider file that is sent to ACS. The file is available the same day the new provider information is available in BESST.

- If the trailer record of the submitted provider file is not 76 characters it will be counted as Discarded and under Trailer Record section of the error file.
- If the trailer record starts with 'TRAILER RECORD DATA' but does not otherwise match the trailer record format for the provider file, it will be listed as Discarded and under Trailer Record section of the error file.
- Blank rows in the provider file will show in the error file under BAD. This section of the file generally only has one blank row between it and the DISCARDED section. If more rows exist, then the program is reporting blank rows in the provider file.
- If there is no trailer record listed in the Trailer Record of the file then there was no trailer record in the provider file. A trailer record must match the file layout to be considered by the program as a trailer record.

M. Child Health Check-Up Reports

1. The Health Plan shall submit the Child Health Check Up, CMS 416. The Health Plan shall submit the report annually in the format set forth in Table 97, below. The reporting period is the federal fiscal year, October 1 – September 30. The report is due on January 15, following the reporting period. The Health Plan shall submit to the Agency a certification by an Agency-approved independent auditor that the information and data contained in the Child Health Check-Up report is fairly and accurately presented before October 1 following each reporting period. This filing requires a copy of the audited reports and a copy of the auditors' letter of opinion.
2. For each of the following line items, report total counts by the age groups indicated. In cases where calculations are necessary, perform separate calculations for the total column and each

age group. Report age **based upon the child's age as of September 30 of the federal fiscal year.**

Medicaid Provider ID Number: Enter the first seven digits of the Health Plan's Medicaid Provider ID number.

Plan Name: Enter the name of the Health Plan.

Fiscal Year: Enter the federal fiscal year being reported.

Line 1 - Total Individuals Eligible for Child Health Check-Up (CHCUP): Enter the total unduplicated number of all Enrollees under the age of 21, distributed by age and by basis of Medicaid Eligibility category. **Unduplicated** means that an Enrollee is **reported only once**, although he or she may have had more than one period of Eligibility during the year. All Enrollees under age 21 are considered eligible for CHCUP services, regardless of whether they have been informed about the availability of CHCUP services or whether they accept CHCUP services at the time of informing. **Do not count Enrollees in the MediKids populations.**

Line 2a - State Periodicity Schedules - Given.

Line 2b - Number of Years in Age Group - Given.

Line 2c - Annualized State Periodicity Schedule - Given.

Line 3a - Total Months Eligibility - Enter the total months of Eligibility for the Enrollees in each age group in Line 1 during the reporting year.

Line 3b - Average Period of Eligibility - Pre-calculated by dividing the total months of Eligibility by Line 1, then by dividing that number by 12. This number represents the portion of the year that Enrollees remain Medicaid Eligible during the reporting year, regardless of whether Eligibility was maintained continuously.

Line 4 - Expected Number of Screenings per Eligible Multiply - Pre-calculated by multiplying Line 2c by Line 3b. This number reflects the expected number of initial or periodic screenings per Child/Adolescent per year based on the number required by the State-specific periodicity schedule and the average period of Eligibility.

Line 5 - Expected Number of Screenings - Pre-calculated by multiplying Line 4 by Line 1. This reflects the total number of initial or periodic screenings expected to be provided to the Enrollees in Line 1.

Line 6 - Total Screenings Received - Enter the total number of initial or periodic screens furnished to Enrollees. Use the CPT codes listed below or any Health Plan-specific CHCUP codes developed for these screens. Use of these proxy codes is for reporting purposes only.

3. The Health Plan must continue to ensure that all five (5) age-appropriate elements of an CHCUP screen, as defined by law, are provided to CHCUP eligible Enrollees
4. This number should **not** reflect sick visits or episodic visits provided to Children/Adolescents unless an initial or periodic screen was also performed during the visit. However, it may reflect a screen outside of the normal state periodicity schedule that the Plan uses as a "catch-up" CHCUP screening. The Agency defines a catch-up CHCUP screening as a **complete** screening that is provided to bring a child up-to-date with the State's screening periodicity schedule. The Health

Formatted: Centered

Plan shall use data reflecting **date of service** within the fiscal year for such screening services or other documentation of such services. The Health Plan shall **not count MediKIDS Enrollees, who have had a check-up.** The Health Plan shall use the following CPT-4 codes to document the receipt of an initial or periodic screen:

Codes for Preventive Medicine Services

- 99381 New Patient Under One Year
- 99382 New Patient Ages 1 - 4 Years
- 99383 New Patient Ages 5 - 11 Years
- 99384 New Patient Ages 12 - 17 Years
- 99385EP New Patient Ages 18 - 39 Years
- 99391 Established Patient Under One Year
- 99392 Established Patient Ages 1 - 4 Years
- 99393 Established Patient Ages 5 - 11 Years
- 99394 Established Patient Ages 12 - 17 Years
- 99395EP Established Patient Ages 18 - 39 Years
- 99431 Newborn Care - History and Examination
- 99432 Normal Newborn Care
- 99435 Newborn Care (history and examination)

Codes For Evaluation and Management Services (must be used in conjunction with V codes V20-V20.2 and/or V70.0 and/or V70.3-V70.9)

- 99201-99205 New Patient
- 99211-99215 Established Patient

Line 7 - Screening Ratio - Pre-calculated by dividing the actual number of initial and periodic screening services received (Line 6) by the expected number of initial and periodic screening services (Line 5). This ratio indicates the extent to which CHCUP eligible Enrollees receive the number of initial and periodic screening services required by the State's periodicity schedule, adjusted by the proportion of the year for which they are Medicaid Eligible. **This ratio should not be over 100%. Any data submitted which exceeds 100% will be reflected as 100% on the final report.**

Line 8 - Total Eligibles Who Should Receive at Least One (1) Initial or Periodic Screen - The number of Enrollees who should receive at least one (1) initial or periodic screen is dependent on the State's periodicity schedule. The State uses the following calculations to determine the number of Enrollees:

- a. If the number entered in Line 4 is greater than 1, the number 1 is used. If the number in Line 4 is less than or equal to 1, the number in Line 4 is used. This eliminates situations where more than one visit is expected in any age group in a year.
- b. The number from calculation 1 is multiplied by the number in Line 1 and entered on Line 8.

Line 9 - Total Eligibles Receiving at Least One (1) Initial or Periodic Screen - Enter the unduplicated count of Enrollees who received at least one (1) documented initial or periodic screen during the year. Refer to codes in Line 6 and count Enrollees where the Health Plan has received a claim. **The Health Plan shall not count MediKIDS Enrollees who have had a check-up.**

Formatted: Centered

Line 10 - Participant Ratio - Pre-Calculated by dividing Line 9 by Line 8. This ratio indicates the extent to which Enrollees are receiving any initial and periodic screening services during the year. **NOTE:** The Health Plan shall adopt annual participation goals to achieve at least an eighty percent (80%) CHCUP participation rate pursuant to Section 5360, Annual Participation Goals, of the State Medicaid Manual.

Line 11 - Total Eligibles Referred for Corrective Treatment - Enter the **unduplicated** number of Enrollees who, as a result of at least one (1) health problem identified during an initial or periodic screening service, **including vision and hearing screenings**, were scheduled for another appointment with the screening provider or referred to another provider for further needed diagnostic or treatment services. This element does not include correction of health problems during the course of a screening examination. This element is required. The Health Plan should include the federally required referral codes in Line 11.

For reporting on the CMS-416 only count the referral codes "T" and "V".

U	Complete Normal Used when there are no referrals made.
2	Abnormal, Treatment Initiated Used when a child is currently under treatment for referred diagnostic or corrective health problem.
T	Abnormal, Recipient Referred Used for referrals to another provider for diagnostic or corrective treatments or scheduled for another appointment with check-up provider for diagnostic or corrective treatment for at least one (1) health problem identified during an initial check-up
V	Patient Refused Referral Used when the patient refused a referral.

- For purposes of reporting information on dental services, **unduplicated** means that the Health Plan counts each child once for **each line of data** requested. Example: The Health Plan would count a child once on Line 12a for receiving any dental service and count the child again for Line 12b and/or 12c if the child received a preventive and/or treatment dental service. These numbers should reflect services received in managed care. Lines 12b and 12c do not equal total services reflected on Line 12a.

Line 12a - Total Eligibles Receiving Any Dental Services - Enter the **unduplicated** number of Children/Adolescents receiving **any** dental services as defined by CDT Codes D0100 - D9999.

Line 12b - Total Eligibles Receiving Preventive Dental Services - Enter the **unduplicated** number of Children/Adolescents receiving a preventive dental service as defined by CDT Codes D1000 - D1999.

Line 12c - Total Eligibles Receiving Dental Treatment Services - Enter the **unduplicated** number of Children/Adolescents receiving treatment services as defined by CDT Codes D2000 - D9999.

Formatted: Centered

Line 13 - Total Eligibles Enrolled in Managed Care - This number is for informational purposes only. This number represents all Enrollees eligible for CHCUP services, who were Enrolled at any time during the reporting year. The Health Plan should include these Enrollees in the total number of unduplicated eligibles on Line 1 and the Health Plan should include the number of initial or periodic screenings provided to these Enrollees in Lines 6 and 8 for purposes of determining the State's screening and participation rates. The Health Plan should include the number of Enrollees referred for corrective treatment and receiving dental services in Lines 11 and 12, respectively. **Do not count MediKids Enrollees.**

6. To report the number of screening blood lead tests the Health Plan shall do the following: Count the number of times CPT code 83655 ("lead") or any State-specific (local) codes used for a blood lead test reported with any ICD-9-CM except with diagnosis codes 984 (.0 - .9) ("Toxic Effects of Lead and Its Compounds"), E861.5 ("Accidental Poisoning by Petroleum Products, Other Solvents and Their Vapors NEC: Lead Paints"), and E866.0 (Accidental Poisoning by Other Unspecified Solid and Liquid Substances: Lead and Its Compounds and Fumes"). The Agency uses these specific ICD-9-CM diagnosis codes to identify people who are lead poisoned. The Health Plan should not count blood lead tests done on these individuals as a screening blood lead test. ***This is a federally mandated test for Enrollees ages 12 months, 24 months and between the ages of 36 – 72 months whom the Health Plan has not previously screened for lead poisoning.***

Line 14 - Total Number of Screening Blood Lead Tests - Enter the total number of screening blood lead tests furnished to eligible Enrollees. Blood lead tests done on Enrollees who have been diagnosed or treated for lead poisoning should not be counted. Do not make entries in the shaded columns.

Line 15 - Total Number of POSITIVE Screening Blood Lead Tests - Enter the total number of positive blood lead tests.

X. Medicaid Redetermination Notice Summary Report

This report must be submitted to the Agency if the Health Plan participates in the receipt of Medicaid redetermination date information for its Enrollees. If the Health Plan does not receive Medicaid redetermination date information during a quarter, then the Health Plan does not submit this report. For Health Plans that must submit this report, the following information and requirements apply:

1. The Agency will send the Health Plan the format and template for this report when it notifies the Health Plan that it will transmit the redetermination date information to the Health Plan (see Attachment II, Section IV., Enrollee Services, A.10.).
2. The Health Plan must submit to the Agency's BMHC a completed quarterly summary report due forty-five (45) Calendar Days after the end of the calendar quarter being reported. The summary report must include the following:

a. For mailed notices:

- (1) Number of notices mailed each month, by month
- (2) Date(s) the notices were mailed, by month
- (3) Copy of the letter sent each month
- (4) Number of returned notices received at the Health Plan each calendar quarter.

b. For automated voice messages:

- (1) Number of automated calls made each month, by month
- (2) Dates the messages were made each month

**Section XIII
Method of Payment**

A. Overview

A. Overview. This is a fixed price (unit cost) Contract. The Agency will manage this fixed price Contract for the delivery of services to Enrollees (service units). The PSN will be paid through the Fiscal Agent in accordance with the terms of this Contract, subject to the availability of funds and the amount of shared cost-savings experienced through this Contract. Payments made to the PSN resulting from this Contract will include monthly administrative allocation payments and share of cost-savings payments, if any, as specified below. Administrative and share of cost-savings payments are in addition to a monthly \$3.00 per member per month fee paid to the PSN for the provision of Primary Care Case Management for Enrollees. This Primary Care Case Management Fee is subject to change as legislatively mandated.

1. Administrative Allocation. The Agency may make monthly payments to the PSN as an allocation for administrative activities undertaken by the PSN.

- a. The amount of the administrative allocation is a per member per month amount for each person enrolled in the PSN for the month.
- b. The administrative allocation is separate from the monthly Primary Care Case Management fees paid to the PSN.
- c. The PSN is at risk for a maximum of 50% of each administrative allocation received from the Agency as indicated in Section XIII, D., Initial Reconciliation, below.
- d. The Agency reserves the right to adjust the administrative allocation on an as needed basis.
- e. The Agency may provide an advance of the administrative allocation not to exceed \$300,000. The agreed-upon advance amount would be paid by the Agency after Contract execution. This advance amount will be amortized over the life of the Contract and deducted in equal installments from the monthly administrative allocation. If the Contract ends prior to the advance being repaid, the PSN shall refund the remainder of the advance owed within an Agency agreed-upon timeframe not to exceed the life of the contract had the contract not ended early.

2. Per Capita Capitation Benchmark (PCCB). The Agency shall establish a per capita capitation benchmark (PCCB) for each Service Area in which the PSN provides services and for those services the PSN provides (including Primary Care Case Management fees). The PCCB is an Agency-established per member per month cost (PMPM) and, for purposes of this Section, is considered to be the capitation rate that the Agency would have paid the PSN if the PSN had been capitated except for inclusion of any rebates. Pursuant to s. 409.91211, F.S., the development of the PCCB is consistent with Medicaid Reform HMO capitation methodology and includes the application of the monthly Plan Factor for risk adjustment.

- a. The PCCB is a blended rate that includes Covered Services consistent with Medicaid Reform Prepaid Health Plan Capitation Rate methodology.

b. The Medicaid Reform Prepaid Health Plan Capitation Rate methodology does not include services paid by the Agency to the Prepaid Health Plan through Kick Payments. Kick Payments are a method the Agency uses to reimburse Prepaid Health Plans in the form of a separate one-time fixed payment for specific services. Obstetrical deliveries and transplant services are Kick Payment services and as such are not included in the PCCB.

c. For a Health Plan that receives a capitated payment for transportation, an adjustment will be made to the PCCB to account for the capitation payment received by the Health Plan from the Agency for transportation services.

Formatted: Bullets and Numbering

d. The PCCB is calculated by the Enrollees' Medicaid eligibility groups (MEG). If an Enrollee changes eligibility groups and the change is identified in the system, then the Enrollee's final eligibility group will be used by the Agency in establishing the PCCB. However, the Agency shall use the Enrollee's age group at the time of each month's Enrollment when establishing the PCCB.

e. The aggregate PCCB is the total sum of all PCCBs for all Enrollees as calculated by the Agency.

B. Cost Reconciliation Process

Formatted: Font: Not Italic

a. The PCCB is calculated by the Enrollees' Medicaid eligibility groups (MEG). If an Enrollee changes eligibility groups and the change is identified in the system, then the Enrollee's final eligibility group will be used by the Agency in establishing the PCCB. However, Enrollees with HIV or AIDS who are identified as a result of the reconciliation process, but not by the PSN, will not be reclassified to the higher rate.

Formatted: Bullets and Numbering

b. The aggregate PCCB is the total sum of all PCCBs for all Enrollees as calculated by the Agency.

Formatted: Bullets and Numbering

The aggregate PCCB is used in the Agency's cost reconciliation process to determine cost savings and refunds due. If the actual Medicaid costs for PSN covered services are less than the aggregate PCCB, then cost savings have occurred, and the PSN may receive a share of those cost savings. If the actual Medicaid costs for PSN covered services provided to the PSN's Enrollees are greater than the aggregate PCCB, then cost savings have not occurred and the PSN may be required to refund a portion of the administrative allocation it received.

The aggregate PCCB is used in the Agency's cost reconciliation process to determine cost savings and refunds due. If the actual Medicaid costs for PSN Covered Services are less than the aggregate PCCB, then cost savings have occurred, and the PSN may receive a share of those cost savings. If the actual Medicaid costs for PSN Covered Services provided to the PSN's Enrollees are greater than the aggregate PCCB, then cost savings have not occurred and the PSN may be required to refund a portion of the administrative allocation it received.

(3) Enrollees with HIV or AIDS, who are identified as a result of the reconciliation process, but not by the PSN, will not be reclassified to the higher rate.

~~**D. Initial Reconciliation.** The Agency shall conduct the initial reconciliation to determine the estimated amount of cost savings achieved by the PSN for the dates of service in the period being reconciled. The Agency shall calculate the aggregate amount of actual payments made on behalf of the PSN's Enrollees. Only payments for Covered Services and for dates of service within the reconciliation period shall be included in determining the actual payments. For purposes of the reconciliation, the Agency shall adjust the actual claim costs to \$550,000 for covered services provided to non-pregnant adult Enrollees in excess of \$550,000. The PSN will not be held liable for claims costs of over \$550,000 for non-pregnant adult Enrollees. Section XIV
Sanctions

Section XIV
Sanctions

A. General Provisions

1. The PSN shall comply with all requirements and performance standards set forth in this Contract. In the event the Agency identifies a violation of this Contract, or other non-compliance with this Contract, the PSN shall submit a corrective action plan (CAP) within three (3) Calendar Days of the date of receiving notification of the violation or non-compliance from the Agency.
2. Within five (5) Business Days of receiving the CAP the Agency will either approve or disapprove the CAP. If disapproved, the PSN shall resubmit, within ten (10) Business Days, a new CAP that addresses the concerns identified by the Agency.
3. Upon approval of the CAP, whether the initial CAP or the revised CAP, the PSN shall implement the CAP within the time frames specified by the Agency.
4. Except where specified below, the Agency shall impose a monetary sanction of \$100 per day on the PSN for each Calendar Day that the approved CAP is not implemented to the satisfaction of the Agency

B. Specific Sanctions

As described in 42 CFR 438.700, the Agency may impose any of the following sanctions against a PSN if it determines that a PSN has violated any provision of this Contract, or any applicable statutes.

1. Suspension of the PSN's Voluntary Enrollments and participation in the Mandatory Assignment process for Enrollment.
2. Suspension or revocation of payments to the PSN for Enrollees during the sanction period.
3. For any nonwillful violation of the Contract, the Agency shall impose a fine, not to exceed \$2,500 per Violation. In no event shall such fine exceed an aggregate amount of \$10,000 for all nonwillful Violations arising out of the same action.
4. With respect to any knowing and willful violation of the Contract the Agency shall impose a fine upon the PSN in an amount not to exceed \$20,000 for each such violation. In no event shall such fine exceed an aggregate amount of \$100,000 for all knowing and willful violations arising out of the same action.
5. If the PSN fails to carry out substantive terms of the Contract or fails to meet applicable requirements in 42 CFR 438.700, the Agency shall terminate the Contract. After the Agency notifies the PSN that it intends to terminate the Contract, the Agency shall give the PSN's Enrollees written notice of the State's intent to terminate the Contract and allow the Enrollees to disenroll immediately without Cause.

6. The Agency may impose intermediate sanctions in accordance with 42 CFR 438.702, including, but not limited to:
 - a. Civil monetary penalties in the amounts specified in this contract.
 - b. Appointment of temporary management for the PSN. Rules for temporary management pursuant to 42 CFR 438.706 are as follows:
 - (1) The State may impose temporary management only if it finds (through on-site survey, Enrollee Grievances, financial audits, or any other means) that:
 - i. There is continued egregious behavior by the PSN, including but not limited to behavior that is described in 42 CFR 438.700;
 - ii. There is substantial risk to Enrollees' health;
 - iii. The sanction is necessary to ensure the health of the PSN's Enrollees;
 - iv. While improvements are made to remedy the PSN's violation(s) under 42 CFR 438.700; or
 - v. Until there is an orderly termination or reorganization of the PSN.
 - (2) The State must impose temporary management (regardless of any other sanction that may be imposed) if it finds that the PSN has repeatedly failed to meet substantive requirements in 42 CFR 438.706. The State must also grant Enrollees the right to terminate Enrollment without Cause, as described in 42 CFR 438.702(a)(3), and must notify the affected Enrollees of their right to terminate Enrollment.
 - (3) The State shall not delay imposition of temporary management to provide a hearing before imposing this sanction.
 - (4) The State shall not terminate temporary management until it determines that the PSN can ensure that the sanctioned behavior will not recur.
 - c. Granting Enrollees the right to terminate Enrollment without Cause and notifying affected Enrollees of their right to disenroll.
 - d. Suspension or limitation of all new Enrollment, including Mandatory Enrollment, after the effective date of the sanction.
 - e. Suspension of payment for Enrollees after the effective date of the sanction and until CMS or the Agency is satisfied that the reason for imposition of the sanction no longer exists and is not likely to recur.
 - f. Before imposing any intermediate sanctions, the State must give the PSN timely notice according to 42 CFR 438.710.

7. If the PSN's CHCUP Screening compliance rate is below sixty percent (60%), it must submit to the Agency, and implement, an Agency accepted CAP. If the PSN does not meet the standard established in the CAP during the time period indicated in the plan, the Agency has the authority to impose sanctions in accordance with this section.
8. Unless the duration of a sanction is specified, a sanction shall remain in effect until the Agency is satisfied that the basis for imposing the sanction has been corrected and is not likely to recur.
9. The Agency reserves the right to withhold all or a portion of the PSNs monthly administrative allocation for any amount owed pursuant to this section.

Section XV Financial Requirements

A. Insolvency Protection

The PSN shall submit to the Agency for approval a comprehensive plan for transitioning from a fee-for-service PSN to a prepaid capitated PSN. Such transition plan shall be in accordance with Agency guidelines, per Section II.C.18, General Overview, Responsibilities of the State of Florida and the Agency for Health Care Administration (the Agency), and shall be designed to ensure that the PSN is capable of meeting all solvency, reserves and working capital requirements of chapter 641 F.S. Although the PSN shall not be required to be licensed in accordance with chapter 641 F.S., the PSN shall be required to comply with all solvency requirements of Medicaid HMOs, at such time as the PSN transitions from a fee-for-services PSN to a pre-paid capitated PSN. Such transition plan shall be submitted to the Agency no later than the last Calendar Day of the seventeenth (17th) month of the PSN's initial Medicaid Reform service operation. This transition plan shall detail how the PSN intends to meet the requirements of the conversion application. The PSN shall submit a Reform PSN Conversion Application to support the conversion to a capitated Health Plan contract no later than the last Calendar Day of the twenty-eighth (28th) month of the PSN's initial Medicaid Reform service operation~~the first (1st) quarter of the second year of the Contract.~~

B. Interest

Interest generated through investments made by the PSN under this Contract shall be the property of the PSN and shall be used at the PSN's discretion.

C. Inspection and Audit of Financial Records

The state and DHHS may inspect and audit any financial records of the plan or its subcontractors. Pursuant to section 1903(m)(4)(A) of the Social Security Act and State Medicaid Manual 2087.6(A-B), non-federally qualified plans must report to the state, upon request, and to the Secretary and the Inspector General of DHHS, a description of certain transactions with parties of interest as defined in section 1318(b) of the Social Security Act.

D. Physician Incentive Plans

1. Physician incentive plans shall comply with 42 CFR 417.479, 42 CFR 438.6(h), 42 CFR 422.208 and 42 CFR 422.210. PSNs shall make no specific payment directly or indirectly under a physician incentive plan to a physician or physician group as an inducement to reduce or limit medically necessary services furnished to an individual Enrollee. Incentive plans must not contain provisions which provide incentives, monetary or otherwise, for the withholding of medically necessary care.
2. The PSN shall disclose information on physician incentive plans listed in 42 CFR 417.479(h)(1) and 417.479(i) at the times indicated in 42 CFR 417.479(d)-(g). All such arrangements must be submitted to the Agency for approval, in writing, prior to use. If any other type of withhold arrangement currently exists, it must be omitted from all subcontracts.

E. Third Party Resources

1. The PSN shall be responsible for making every reasonable effort to determine the legal liability of third parties to pay for services rendered to Enrollees under this Contract.
2. The PSN shall cost avoid all services that are subject to payment from a third party health insurance carrier, and may deny a service to an Enrollee if the PSN is assured that the third party health insurance carrier will provide the service, with the exception of those situations described below. However, if a third party health insurance carrier requires the Enrollee to pay any cost-sharing amounts (e.g., copayment, coinsurance, deductible), the PSN shall authorize claims for the cost sharing amounts, even if the services are provided outside the PSN's network. The PSN's authorization of claims for such cost sharing amounts shall not exceed the amount the Agency would have paid under the non-Medicaid Reform FFS program.
3. Further, the PSN shall not deny claims for services provided to an Enrollee if third party liability, or the amount of third party liability, cannot be determined, or if payment will not be available within sixty (60) Calendar Days.
4. The requirement of Cost Avoidance applies to all Covered Services except claims for labor and delivery, including inpatient hospital care and postpartum care, prenatal services, preventive pediatric services, and services provided to a dependent covered by health insurance pursuant to a court order. For these services the PSN shall ensure that services are provided without regard to insurance payment issues and must provide the service first. The PSN shall then coordinate with the Agency or its Agent to enable the Agency to recover payment from the potentially liable third party.
5. If the PSN determines that third party liability exists for part or all of the services rendered, the PSN shall:
 - a. Notify Providers and supply third party liability data to a Provider whose Claim is denied for payment due to third party liability; and
 - b. Authorize the Provider's claim for only the amount, if any, by which the Provider's allowable claim exceeds the amount of third party liability.

F. Fidelity Bonds

The PSN shall secure and maintain during the life of this Contract a blanket fidelity bond from a company doing business in the State of Florida on all personnel in its employment. The bond shall be issued in the amount of at least \$250,000 per occurrence. Proof of coverage must be submitted to the Agency's contract manager within sixty (60) Calendar Days after execution of the Contract and prior to the delivery of health care. F. Contract Variation

If any provision of the Contract (including items incorporated by reference) is declared or found to be illegal, unenforceable, or void, then both the Agency and the PSN shall be relieved of all obligations arising under such provisions. If the remainder of the Contract is capable of performance, it shall not be affected by such declaration or finding and shall be fully performed. In addition, if the laws or regulations governing this Contract should be amended or judicially interpreted as to render the fulfillment of the Contract impossible or economically infeasible, both the Agency and the PSN shall

be discharged from further obligations created under the terms of the Contract. However, such declaration or finding shall not affect any rights or obligations of either party to the extent that such rights or obligations arise from acts performed or events occurring prior to the effective date of such declaration or finding.

G. Court of Jurisdiction or Venue

For purposes of any legal action occurring as a result of or under this Contract, between the PSN and the Agency, the place of proper venue shall be Leon County.

H. Damages for Failure to Meet Contract Requirements

I. Disputes

The PSN may request in writing an interpretation of the Contract from the Contract manager. In the event the PSN disputes this interpretation, the PSN may request that the dispute be decided by the Division of Medicaid. The ability to dispute an interpretation does not apply to issues that are a matter of law or fact. Any disputes shall be decided by the Agency's Division of Medicaid which shall reduce the decision to writing and serve a copy on the PSN. The written decision of the Agency's Division of Medicaid shall be final and conclusive. The division will render its final decision based upon the written submission of the PSN and the Agency, unless, at the sole discretion of the Division director, the division allows an oral presentation by the PSN and the Agency. If such a presentation is allowed, the information presented will be considered in rendering the division's decision. Should the PSN challenge an Agency decision through arbitration as provided below, the Agency action shall not be stayed except by order of an arbitrator. Thereafter, a PSN shall resolve any controversy or claim arising out of or relating to the Contract, or the breach thereof, by arbitration. Said arbitration shall be held in the City of Tallahassee, Florida, and administered by the American Arbitration Association in accordance with its applicable rules and the Florida Arbitration Code (chapter 682, F.S.). Judgment upon any award rendered by the arbitrator may be entered by the Circuit Court in and for the Second Judicial Circuit, Leon County, Florida. The chosen arbitrator must be a member of the Florida Bar actively engaged in the practice of law with expertise in the process of deciding disputes and interpreting contracts in the health care field. Any arbitration award shall be in writing and shall specify the factual and legal bases for the award. Either party may appeal a judgment entered pursuant to an arbitration award to the First District Court of Appeal. The parties shall bear their own costs and expenses relating to the preparation and presentation of a case in arbitration. The arbitrator shall award to the prevailing party all administrative fees and expenses of the arbitration, including the arbitrator's fee. This Contract with numbered attachments represents the entire agreement between the PSN and the Agency with respect to the subject matter in it and supersedes all other contracts between the parties when it is duly signed and authorized by the PSN and the Agency. Correspondence and memoranda of understanding do not constitute part of this Contract. In the event of a conflict of language between the Contract and the attachments, the provisions of the Contract shall govern. However, the Agency reserves the right to clarify any contractual relationship in writing with the concurrence of the PSN and such clarification shall govern. Pending final determination of any dispute over an Agency decision, the PSN shall proceed diligently with the performance of the contract and in accordance with the Agency's Division of Medicaid direction.

J. Force Majeure

The Agency shall not be liable for any excess cost to the PSN if the Agency's failure to perform the Contract arises out of causes beyond the control and without the result of fault or negligence on the part of the Agency. In all cases, the failure to perform must be beyond the control without the fault or negligence of the Agency. The PSN shall not be liable for performance of the duties and responsibilities of the Contract when its ability to perform is prevented by causes beyond its control. These acts must occur without the fault or negligence of the PSN. These include destruction to the facilities due to hurricanes, fires, war, riots, and other similar acts. Annually by May 31, the PSN shall submit to the Agency for approval an emergency management plan specifying what actions the PSN shall conduct to ensure the ongoing provisions of health services in a disaster or man-made emergency.

K. Legal Action Notification

The PSN shall give the Agency by certified mail immediate written notification (no later than thirty (30) Calendar Days after service of process) of any action or suit filed or of any claim made against the PSN by any subcontractor, vendor, or other party which results in litigation related to this Contract for disputes or damages exceeding the amount of \$50,000. A Health Plan must be licensed under Chapter 641, Florida Statutes in order to offer a Specialty Plan for the population with HIV/AIDS.

M. Misuse of Symbols, Emblems, or Names in Reference to Medicaid

No person or Health Plan may use, in connection with any item constituting an advertisement, solicitation, circular, book, pamphlet or other communication, or a broadcast, telecast, or other production, alone or with other words, letters, symbols or emblems the words "Medicaid," or "Agency for Health Care Administration," except as required in the Agency's core contract, page ~~two-six (26)~~, unless prior written approval is obtained from the Agency. Specific written authorization from the Agency is required to reproduce, reprint, or distribute any Agency form, application, or publication for a fee. State and local governments are exempt from this prohibition. A disclaimer that accompanies the inappropriate use of program or Agency terms does not provide a defense. Each piece of mail or information constitutes a violation.

N. Offer of Gratuities

By signing this agreement, the PSN signifies that no member of or a delegate of Congress, nor any elected or appointed official or employee of the State of Florida, the General Accounting Office, Department of Health and Human Services, CMS, or any other federal Agency has or shall benefit financially or materially from this procurement. The Contract may be terminated by the Agency if it is determined that gratuities of any kind were offered to or received by any officials or employees from the offeror, his agent, or employees.

All Subcontracts must comply with 42 CFR 438.230. All Subcontracts and amendments executed by the PSN shall meet the following requirements. All Subcontractors must be eligible for participation in the Medicaid program; however, if the PSN receives a capitation payment from the Agency for the service that the Subcontractor is providing, the Subcontractor is not required to participate in the Medicaid program as a provider. The Agency encourages use of minority business enterprise Subcontractors. See Section X.C., Administration and Management, Provider Contracts, of this Contract, for provisions and requirements specific to Provider contracts.
2. No Subcontract which the PSN enters into with respect to performance under the Contract shall in any way relieve the PSN of any responsibility for the performance of duties under this Contract. The PSN shall assure that all tasks related to the Subcontract are performed in accordance with the terms of this Contract. The PSN shall identify in its Subcontracts any aspect of service that may be further subcontracted by the Subcontractor.
3. All model and executed Subcontracts and amendments used by the PSN under this Contract must be in writing, signed, and dated by the PSN and the Subcontractor and meet the following requirements:

 - i. Require safeguarding of information about Enrollees according to 42 CFR, Part 438.224.
 - ii. Require compliance with HIPAA privacy and security provisions.
 - iii. Require an exculpatory clause, which survives Subcontract termination including breach of Subcontract due to insolvency, that assures that Medicaid Recipients or the Agency may not be held liable for any debts of the Subcontractor.
 - iv. If there is a PSN physician incentive plan, include a statement that the PSN shall make no specific payment directly or indirectly under a physician incentive plan to a Subcontractor as an inducement to reduce or limit Medically Necessary services to an Enrollee, and that all incentive plans shall not contain provisions which provide incentives, monetary or otherwise, for the withholding of Medically Necessary care;
- 4. Contain a clause indemnifying, defending and holding the Agency and the PSN Enrollees harmless from and against all claims, damages, causes of action, costs or expense, including court costs and reasonable attorney fees to the extent proximately caused by any negligent act or other wrongful conduct arising from the Subcontract agreement. This clause must survive the termination of the Subcontract, including breach due to Insolvency. The Agency may waive this requirement for itself, but not PSN Enrollees, for damages in excess of the statutory cap on damages for public entities if the Subcontractor is a public health entity with statutory immunity. All such waivers must be approved in writing by the Agency.
- 5. Require that the Subcontractor secure and maintain during the life of the Subcontract worker's compensation insurance for all of its employees connected with the work under this Contract unless such employees are covered by the protection afforded by the PSN. Such insurance shall comply with the Florida's Worker's Compensation Law.
- 6. Specify that if the Subcontractor delegates or Subcontracts any functions of the PSN, that the Subcontract or delegation includes all the requirements of this Contract.

The party initiating the termination shall render written notice of termination to the other party by certified mail, return receipt requested, or in person with proof of delivery, or by facsimile letter followed by certified mail, return receipt requested. The notice of termination shall specify the nature of termination, the extent to which performance of work under the Contract is terminated, and the date on which such termination shall become effective. In accordance with 1932(e)(4), Social Security Act, the Agency shall provide the plan with an opportunity for a hearing prior to termination for cause. At least sixty (60) Calendar Days prior to the termination effective date, provide written notification to all Enrollees of the following information: the date on which the PSN will no longer participate in the State's Medicaid program; and instructions on contacting the Agency's Choice Counselor/Enrollment Broker help line to obtain information on Enrollee enrollment options and to request a change in Health Plans.

R. Waiver

No covenant, condition, duty, obligation, or undertaking contained in or made a part of the Contract shall be waived except by written agreement of the parties, and forbearance or indulgence in any other form or manner by either party in any regard whatsoever shall not constitute a waiver of the covenant, condition, duty, obligation, or undertaking to be kept, performed, or discharged by the party to which the same may apply. Until complete performance or satisfaction of all such covenants, conditions, duties, obligations, or undertakings, the other party shall have the right to invoke any remedy available under law or equity not withstanding any such forbearance or indulgence.
