

**Disclaimer:** A small percentage of beneficiaries appear to have a Broward county zip code but are listed as living in Duval county, and vice versa. Please note that this report was created based on the beneficiary billing county, which is considered the most accurate and up-to-date beneficiary geographic variable available. If a beneficiary had a non-Broward or non-Duval zip code, then the beneficiary was not included in the final zip code counts. This amounted to a very small percentage of the total beneficiaries. However, since both Broward and Duval county zip codes were included in the report, there are small numbers of beneficiaries whose zip codes do not match their counties. This is an anomaly that will occasionally occur when using zip code data. You may disregard these non-county zip codes if you use this data in your provider network analyses, as the numbers will not make a material difference.

<b>Current MediPass Beneficiaries by Zip Code - Broward and Duval Counties</b>
