**Re: SMMC Invitation to Negotiate – Data Book**

Dear Joycee:

The Florida Agency for Health Care Administration (Agency) retained Milliman, Inc. (Milliman) to develop a data book to provide relevant historical data and background information to potential contractors responding to the Invitation to Negotiate (ITN) issued under the Statewide Medicaid Managed Care (SMMC) program pursuant to Sections 409.961 through 409.985, Florida Statutes.

The data book is structured in two separate reports under this cover: the Managed Medical Assistance (MMA) program data book and the Long Term Care (LTC) program data book. Each report summarizes the following information:

- High level program overview and overview of data book contents
- Definition of time periods, populations, and metrics provided in the historical information summarized in the data book
- Definitions of the data sources used to develop the data book and any adjustments made to the raw data
- Adjustments that are not reflected in the data book
- Caveats and limitations

**CAVEATS AND LIMITATIONS ON USE**

This material was prepared solely to provide assistance to the Agency in publishing a data book for the Statewide Medicaid Managed Care (SMMC) Invitation to Negotiate. It may not be appropriate for other purposes. Milliman does not intend to benefit and assumes no duty or liability to parties other than the Agency who receive this work. This material should only be distributed and reviewed in its entirety.

Guidelines issued by the American Academy of Actuaries require actuaries to include their professional qualifications in all actuarial communications. We are principals and consulting actuaries for Milliman, we are members of the American Academy of Actuaries, and we meet the Qualification Standards of the Academy to render the actuarial communication contained herein. To the best of our knowledge and belief, this communication is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices.

The SMMC data book reports are technical in nature and are dependent upon specific assumptions and methods. Please refer to the caveats and limitations within each report for additional considerations.
