

FLORIDA MEDICAID

Prior Authorization Synagis® Weight Change Form

Note: Form must be completed in full. An incomplete form may be returned.

- Any dosage increase must have corresponding weight charts and/or progress notes with current weight.
- If the dose needed is less than 5 mg over the approved vial size, round down to the nearest vial size. If the dose needed is ≥ 5 mg over the approved vial size, then the new vial size will be approved. For those patients who are expected to gain enough weight to need an additional vial, please schedule a visit to obtain weight & receive approval for dose increase prior to the Synagis® administration date. There are no immediate approvals for "waiting" patients.
- In cases where immediate administration of medication is required, providers should use the currently authorized vial size(s), then submit a weight change request, which will be applied to subsequent dosages only.
