

PRESCRIBED DRUGS IMMUNIZATION FEE SCHEDULE
COVERAGE INFORMATION AND SPECIAL CONSIDERATIONS

Florida Medicaid providers administering vaccines to Florida Medicaid recipients ages 0 through 20 years, must submit two Current Procedural Terminology (CPT) codes: a vaccine product code as well as the vaccine administration code on the claim line for reimbursement of administration from Florida Medicaid for recipients enrolled in the fee-for-service delivery system. A corresponding administration code must be submitted for each vaccine administered during the same visit on the claim form.

Florida Medicaid providers receiving vaccine products through the Vaccine for Children (VFC) Program for fee-for-service recipients 0 through 18 years of age are reimbursed for the administration of the vaccine(s) only. The vaccine product codes are reimbursed at \$0.00, vaccine administration codes are reimbursed in accordance with rates established on this fee schedule.

MediKids enrolls children one through four years of age and are eligible for all immunizations recommended by the Advisory Committee on Immunization Practices (ACIP) for this age group. Florida Medicaid providers who administer vaccines to MediKids enrollees are to be reimbursed for the vaccine products and administration services by the Managed Care Plan. MediKids enrollees are not eligible to receive products provided through the VFC Program.

Administration services are reimbursed at 80% of the maximum fee when performed by an advanced practice registered nurse (APRN), physician's assistant (PA), or registered pharmacist (RPh).

Florida Medicaid providers administering COVID-19 vaccines to Florida Medicaid recipients must submit both the appropriate CPT code for the specific vaccine product in conjunction with the product specific vaccine administration code on the claim for reimbursement of administration from Florida Medicaid for recipients enrolled in the fee-for-service delivery system. The manufacturer-specific products and their dose-specific administration code must be submitted for each vaccine dose administered on the claim form.
