

PRACTITIONER FEE SCHEDULE
Effective January 1, 2017

Anesthesia Reimbursement Method: Calculate your reimbursement by dividing the total minutes of anesthesia by 15. Multiply this number by the conversion factor of \$14.50. Add this to the fee listed below for the procedure code (00120 = \$72.49). Example: 100 minutes of anesthesia for code 00120 = \$159.49. (100 min. divided by 15 = 6.67, rounded down to 6, 6 X \$14.50 = \$87.00, \$87.00 + \$72.49 = total anesthesia fee of \$159.49.)
(Qualified non-physician providers, within their scope of practice, are reimbursed at 80%. Example: \$159.49 X .80 = \$127.59.)

For services provided to children under 21, there is a 4% increase over the adult fee. In addition to the 4% increase, the following physician specialty types receive a 24% increase for services provided to children under 21: 02, 03, 04, 05, 08, 10, 14, 15, 17, 21, 22, 23, 29, 30, 31, 36, 37, 38, 39, 43, 46, 51, 53, 55, 57, 58, 60, 62. When the criteria are met and the 4% and 24% are both applicable, to calculate the specialty fee, multiply the base fee by 1.04, as noted above for children, and then multiply that result by 1.24. Example: For code 99201, the fee is \$28.08 X 1.04 = \$29.20 X 1.24 = \$36.21 (specialty fee).

For CPT codes in the range of 99201-99496, an additional 10.2% increase will apply for services provided by the following physician specialty types: 01, 19, 23, 35, 36, 37, 38, 39, 43, 49, 59, 101, 102. When all criteria in each section are met, and the 4%, 24% and 10.2% are applicable, to calculate the specialty fee for those certain pediatrician specialty codes, multiply the base fee by 1.04, then multiply that result by 1.24, and then multiply that result by 1.102.
Example: For code 99201, the fee is \$28.08 X 1.04 = \$29.20 X 1.24 = \$36.21 X 1.102 = \$39.91 (pediatrician specialty fee). For codes 99381-99384, 99385 EP, 99391-99394, and 99395 EP the base fee includes the 4% pediatric increase. The following rates are for primary care evaluation and management services provided by provider type 25 or 26 to recipients ages 00-19: 99212= 1 unit at \$26.45, 99213 = 1 unit at \$32.56, and 99214 = 1 unit at \$48.27. The only increase applied to the primary care evaluation and management services codes is the 10.2%, and it is only applied to those specialties indicated in this section as eligible for the 10.2%.

When the assistant at surgery is a physician, the assistant physician is reimbursed at 16%. If not a physician, the assistant at surgery is reimbursed at 12.8%.

Advanced Registered Nurse Practitioners, and Physician Assistant rates are reimbursed at 80%.

Reimbursement increases noted above do not apply to the following services: Regional Perinatal Intensive Care Center services (RPICC); injectable medications/ immunization/vaccinations; supplies; devices ; and laboratory/pathology services.

For codes 59409-59622 an asterisk (*) indicates reimbursement for a high risk delivery associated with a high risk diagnosis code.

INCIDENT TO SERVICES: Services provided by an ARNP or a PA under the personal supervision of a physician may be billed by the physician instead of the ARNP or PA, with established recipients, as long as it is not a newly identified problem. The physician must perform subsequent services that reflect their continued active participation in the management of the patient's care.

Exceptions are deliveries, psychiatric services, and Child Health Check-Up screenings. The ARNP or PA who provides these services must bill using their own Medicaid ID number as the rendering provider number.
