

PRESCRIBED DRUGS IMMUNIZATION FEE SCHEDULE

Effective 2019

Florida Medicaid providers administering vaccines to Florida Medicaid recipients ages 0 through 20 years, must submit both Current Procedural Terminology (CPT) codes, a vaccine product code as well as the vaccine administration code on the claim for reimbursement from Florida Medicaid for recipients enrolled in the fee-for-service delivery system. A corresponding administration code must be submitted for each vaccine administered during the same visit on the claim form.

Florida Medicaid providers receiving vaccine products through the Vaccine for Children (VFC) Program for fee-for-service recipients ages 0 through 18 years of age are reimbursed for the administration of the vaccine(s) only. The vaccine product code will be reimbursed at \$0.00*, the vaccine administration code will be reimbursed in accordance with rates established on this fee schedule.

Florida Medicaid providers who administer vaccines to recipients ages 19 and 20 years, must also include both CPT codes on the claim form.

MediKids enrolls children ages one through four years of age. Florida Medicaid providers who administer vaccines to these children are to be reimbursed for the vaccine products** by the SMMC plan as they do not receive the products through the VFC Program.

The administration service is reimbursed at 80% of the maximum fee when performed by an advanced registered nurse practitioner or a physician's assistant.***
