Title Registration Required

Type Rule

400.509(1-2) FS

Regulation Definition

(1) Any person that provides companion services or homemaker services and does not provide a home health service to a person is exempt from licensure under this part. However, any person that provides companion services or homemaker services must register with the agency. A person under contract with the Agency for Persons with Disabilities which provides companion services only for persons with a developmental disability, as defined in s. 393.063, is exempt from registration.

(2) The requirements of part II of chapter 408 apply to the provision of services that require registration or licensure pursuant to this section and part II of chapter 408 and entities registered by or applying for such registration from the Agency for Health Care Administration pursuant to this section. Each applicant for registration and each registrant

Interpretive Guideline

If more than one person is working together as an organization or business providing homemaker or companion services, state law requires HCS registration.

Registration of individuals that work independently on their own is no longer required. The Florida Legislature removed the requirement for individuals to register -- if do not hire others to work with them.

Home health agencies and nurse registries that provide homemaker and companion service are not required to also have a HCS registration. Licensed home health agencies and nurse registries may provide these two services.

Note: Personal care is to be provided by home health aides and certified nursing assistants working for home health agencies and nurse registries per state law as shown in the standards below. Thus, personal care is considered a home health service. If personal care is being provided, the HCS needs to get licensed as a home health agency or nurse registry. See I 0005 below.

Legal Question: Can a Licensed Practical Nurse function outside of the scope of this registration?
