

Florida Managed Medical Assistance (MMA) Physician Incentive Program (MPIP) Rate Calculation Guidance

MPIP YEAR 5 Updated Guidance: Enhanced Payment

Payment to a qualified provider for included services will be equivalent to the Medicare Specific Locality fee-for-service rate that is in effect as of January 1, 2020 (for services provided between October 1, 2020 – December 31, 2020) and January 1, 2021 (for services provided between January 1, 2021 - September 30, 2021) when a Medicare rate is available for the code associated with the included service. Payments to qualified providers may be made either through a capitated arrangement or on a fee-for-service arrangement, as defined by the health plan.

NOTE – The enhanced rates for included services are calculated by health plans, according to Medicare rates, effective October 1, 2020.

For pediatric evaluation and management codes included in the file at the following link, the 2021 Medicare Rates in the Excel file must be used for enhanced payments.

MPIP YEAR 5 Updated Guidance

For MPIP included service codes that do not have a Medicare equivalent and for which Relative Value Units (RVUs) = 0, the managed care plan must use the following formula:

Florida Medicaid rate x 1.6667 = Medicare equivalent rate*

*this Medicare equivalent rate must be reduced by the 2% sequestration.

Florida Medicaid rates can be found on the promulgated fee schedules, which are incorporated by reference in Rule 59G-4.002, Florida Administrative Code. Adopted rules are located at http://ahca.myflorida.com/medicaid/review/fee_schedules.shtml.
