Introduction

The Agency for Health Care Administration receives and processes data from several sources in order to produce need projections in accordance with need methodologies and other legal requirements. This publication contains data related to pediatric open heart surgery programs, pediatric cardiac catheterization services, and adult and pediatric organ transplantation programs. For further information supporting service need projections, please refer to the following documents:

Statutory Authority
Rules
Facility Location Maps

Chapter 408, Florida Statutes
Chapter 59C, Florida Administrative Code

October 2016 Batching Cycle

Batching Cycle

Letters of intent and applications subject to comparative review are accepted in two batching cycles annually each for hospital beds and facilities and for other beds and programs. The category "other beds and programs" includes proposals for pediatric open heart surgery, pediatric cardiac catheterization, and organ transplantation. The schedule for the second batching cycle of 2016 for the category "other beds and programs" is outlined below.

Pediatric Open Heart Surgery, Pediatric Cardiac Catheterization and Organ Transplantation Certificate of Need Batching Cycle

Activity	Current Batching Cycle
Summary Need Projections Published in the F.A.R.	September 30, 2016
Letter of Intent Deadline	October 17, 2016
Application Deadline	November 16, 2016
Completeness Review Deadline	November 23, 2016
Applicant Omissions Deadline	December 28, 2016
Agency Initial Decision Deadline	February 17, 2017

October 2016 Batching Cycle

Pediatric Open Heart Surgery Program Admissions

The most current 12 months open heart surgery program admissions (July 2015 through June 2016) reported by facilities three months prior to the beginning date of the quarter of the publication of the fixed need pool (September 30, 2016).

Source: Reported by local health councils

Operational Pediatric Open Heart Surgery Programs

Pediatric open heart surgery programs approved by the agency that have performed at least one open heart surgery operation as of April 1, 2016, six months prior to the beginning date of the quarter of the publication of the fixed need pool (September 30, 2016).

Source: Agency for Health Care Administration

Approved Pediatric Open Heart Surgery Programs

Pediatric open heart surgery programs with an approved certificate of need, a statement of intent to award a certificate of need, or a final order granting a certificate of need, but not operational, on or before the most recent published deadline for agency decisions (August 19, 2016) prior to publication of the fixed need pool (September 30, 2016).

**Service Areas for Pediatric Open Heart Surgery Programs
Established Pursuant to Rule 59C-1.033, Florida Administrative Code**

SERVICE AREA	DISTRICTS	COUNTIES
1	1 & 2	Escambia, Okaloosa, Santa Rosa, Walton, Bay, Calhoun, Franklin, Gadsden, Gulf, Holmes, Jackson, Jefferson, Leon, Liberty, Madison, Taylor, Wakulla, Washington
2	3 & 4	Alachua, Bradford, Citrus, Columbia, Dixie, Gilchrist, Hamilton, Hernando, Lafayette, Lake, Levy, Marion, Putnam, Sumter, Suwannee, Union, Baker, Clay, Duval, Flagler, Nassau, St. Johns, Volusia
3	5, 6 & 8	Pasco, Pinellas, Hardee, Highlands, Hillsborough, Manatee, Polk, Charlotte, Collier, Desoto, Glades, Hendry, Lee, Sarasota
4	7 & 9	Brevard, Orange, Osceola, Seminole, Indian River, Martin, Okeechobee, Palm Beach, St. Lucie
5	10 & 11	Broward, Miami-Dade, Monroe

Pediatric Open Heart Surgery Program Need Methodology

$$NN = (LB / 30,000) - (OP + AP) > 1$$

NN is the number of additional pediatric open heart surgery programs in the service planning area projected two years into the future.

LB is the number of live births in the service planning area.

OP is the number of operating programs in the service planning area.

AP is the number of approved programs in the service planning area.

Special Note: The need for pediatric open heart surgery programs is determined solely by the number of live births in a service area. (See Rule 59C-1.033, Florida Administrative Code).
