### Re: MPIP Requirements Year 7

Pursuant to s. 409.967(2)(a), F.S., and as specified by the Agency, MMA plans must implement an incentive program wherein payment rates for eligible physicians must equal or exceed Medicare rates for services provided. The Agency fulfilled this requirement through implementation of the MPIP. (Attachment II, Exhibit II-A, Section VIII.E.1.) The purpose of this policy transmittal is to notify the managed care plan about updated requirements to the MPIP Year 7 (October 1, 2022 – September 30, 2023) parameters.

The managed care plan must maintain the same qualification criteria for MPIP Year 7 as was approved by the Agency for MPIP Year 6 (October 1, 2021 – September 30, 2022) and must qualify eligible providers for Year 7 based on the same measurement periods and specifications published by the National Committee for Quality Assurance (Healthcare Effectiveness Data and Information Set), that was used by the plan for MPIP Year 6. Providers who qualified for MPIP Year 6 must continue to be qualified for MPIP Year 7. If any providers have newly qualified for MPIP, these providers must also be added for MPIP Year 7. That is, eligible providers that did not qualify for MPIP in Year 6 may still qualify for Year 7, if their calendar year 2021 performance meets the plan's benchmarks and targets from Year 6.
